

EmiNav

Find the Right Care, Not Just the Closest Care

What is EmiNav?

EmiNav is the first intent-based health navigation platform built for African cities. Search health facilities by service, capability, and location — so you can make informed decisions with confidence.

How It Works - 3 Simple Steps:

1

Choose Your City

Select Lagos or Nairobi

2

Select Your Situation

Emergency? Pregnancy? Need diagnostic tests?

3

Get Verified Facilities

See only facilities with the right equipment & capabilities

Example Searches:

- Diagnosis Tests → CT scan → Shows only facilities with CT machines
- Pregnancy / Maternity → Shows maternity clinics and hospitals
- Stroke symptoms → Shows only hospitals with stroke units
- Child emergency → Shows pediatric facilities

Currently Available:

Lagos
Nairobi
